

**APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA**

Date of filing in State Engineer's Office.....~~MAR 12 1990~~ NEW PRIORITY DATE: NOV 14 1991
 Returned to applicant for correction..... MAR 29 1990
 Corrected application filed..... MAY 15 1990
 Map filed..... MAY 15 1990

The applicant..... The Anschutz Marketing and Transportation Co.
 2400 Anaconda Tower, 555 17th Street, of..... Denver
Street and No. or P.O. Box No. City or Town
 Colorado 80202
State and Zip Code No., hereby make application for permission to appropriate the public
 waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a
 copartnership or association, give names of members.)..... 1987, Denver, Colorado

1. The source of the proposed appropriation is..... underground source
Name of stream, lake, spring, underground or other source
2. The amount of water applied for is..... 30 gpm or .0668 second feet..... second-feet
One second-foot equals 448.83 gals. per min.
 (a) If stored in reservoir give number of acre-feet..... N/A
3. The water to be used for..... commercial and domestic
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.
4. If use is for:
 - (a) Irrigation, state number of acres to be irrigated..... N/A
 - (b) Stockwater, state number and kinds of animals to be watered..... N/A
 - (c) Other use (describe fully under "No. 12. Remarks")..... Supply office (one toilet and sink)
 - (d) Power:
 - (1) Horsepower developed..... N/A
 - (2) Point of return of water to stream..... N/A
5. The water is to be diverted from its source at the following point..... located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 26
Describe as being within a 40-acre subdivision of public
 T33N R52E MDB&M From which the NE corner of said section 26 bears North
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
 43° 50' 23" East a distance of 2259.54 Feet.
6. Place of use..... The SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 26 T33N R52E MDB&M
Describe by legal subdivision. If on unsurveyed land, it should be so stated.
7. Use will begin about..... January 1..... and end about..... December 31....., of each year.
Month and Day Month and Day
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.)..... Water will be diverted by drilling a well
State manner in which water is to be diverted, i.e. diversion structure, ditches and
 and installing a pump and tubing
flumes, drilled well with pump and motor, etc.
9. Estimated cost of works..... \$6,500.00

10. Estimated time required to construct works.....1 year
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use.....2 years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

This water will service a small office building with one toilet, sink and shower.
The office will be manned by two men, eight hours a day, 365 days a year. Estimate that 30 gallons of water will be used each day. The unit will consume 10,950 gallons of water per year.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The issuance of this permit allows a one time filling and an annual addition of water thereafter to offset evaporation for a 16,800 gallon storage tank for fire protection.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0668 cubic feet per second, but not to exceed 10,950 gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before August 16, 1991

Proof of completion of work shall be filed on or before September 16, 1991

Application of water to beneficial use shall be made on or before August 16, 1993

Proof of the application of water to beneficial use shall be filed on or before September 16, 1993

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed AUG 2 1 1992 IN TESTIMONY WHEREOF, I R. MICHAEL TURNIPSEED, P.E.

Proof of beneficial use filed SEP 2 1 1993 State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 16th day of August
